SUBSCRIBER AGREEMENT

YOU MUST READ THIS SUBSCRIBER AGREEMENT BEFORE APPLYING FOR, ACCEPTING, OR USING A CERTIFICATE FROM MTNL TRUSTLINE. IF YOU DO NOT AGREE TO THE TERMS OF THIS SUBSCRIBER AGREEMENT, DO NOT APPLY FOR, ACCEPT, OR USE THE CERTIFICATE.

This Subscriber Agreement details the terms and conditions regarding Your application ("Certificate Application") for a Certificate and, if MTNL TRUSTLINE accepts Your Certificate Application, the terms and conditions regarding Your use of the Certificate to be issued by MTNL TRUSTLINE to You as "Subscriber" of that Certificate.

This Subscriber Agreement will become effective upon your submission of the Certificate Application to MTNL TRUSTLINE or an MTNL TRUSTLINE RA. By submitting Your Certificate Application You are requesting MTNL TRUSTLINE to issue a Certificate to you and are expressing your agreement to the terms of this Subscriber Agreement.

1. DESCRIPTION OF CERTIFICATES. A Certificate is a digitally signed message that contains a Subscriber's public key and associates it with information authenticated by MTNL TRUSTLINE or an MTNL TRUSTLINE RA. MTNL TRUSTLINE under this Agreement offers three distinct classes ("Classes") of Certificates, Classes 1, 2, and 3. Each class, of Certificates provides specific functionality and security features and corresponds to a specific level of trust.

1.1 CLASS 1 CERTIFICATE. Class 1 Certificates are issued to Individuals with valid e-mail addresses. Class 1 validation procedures are based on the assurance that the subscriber's Distinguished Name (DN) is unique and unambiguous within MTNL TRUSTLINE Repository and that the e-mail address in the DN is associated with the Public Key in the Certificate.

1.2 CLASS 2 CERTIFICATES. Class 2 Certificates are issued to Individuals, and Devices. Class 2 validation procedures are based on the assurance that subscriber's Distinguished Name (DN) is unique and unambiguous within MTNL TRUSTLINE Repository and that the identity of the Subscriber based on information provided by the Subscriber in the Certificate Application does not conflict with the information in a MTNL TRUSTLINE approved and well recognized business or consumer database(s) (Validating Database).

1.3 CLASS 3 CERTIFICATES. Class 3 Certificates are issued to Individuals, Organizations, Servers, Devices, and Administrators for CAs and RAs. The validation procedures for Class 3 Certificates issued to Individuals are based on the personal (physical) presence of the Subscriber before a MTNL TRUSTLINE authorized person that confirms the identity of the Subscriber using a well-recognized form of government issued identification and one other identification credential.

1.4 TEST CERTIFICATES. In addition to the three Classes of Certificates described above, MTNL TRUSTLINE also offers "Test" certificates to its Subscribers. These "Test" certificates are solely intended for evaluating the technical implementation of MTNL TRUSTLINE PKI and ascertaining the interoperability of MTNL TRUSTLINE Certificates with various applications and are not to be used or relied upon for any other purposes.
